Dear Marsha:

Herewith are copies of the JLP and PNP manifestos. As you will see, the JLP's is an ambitious document which emphasizes programs for economic recovery, while the PNP's is essentially a projection of its present policies.

Also enclosed is a publication on the chapel at UWI that Professor Gladstone Mills gave me last Friday and asked that they be sent on to you.

I've just ordered a basic collection of books on Jamaica for the Political Section (at a cost of roughly US$200) and stand ready to do the same for your shelves whenever you tell me your budget.

With best regards.

Sincerely,

John D. Forbes
Chief, Political Section
